**PUMP CONSTRUCTION & SERVICING:**

March "ORBITAL" Magnetic Drive Pumps eliminate the conventional shaft seals found in most pumps. This means that there is no rotating seal to wear and allow the liquid being pumped to leak out. There are only two areas in this type construction that rotate and could wear out. One area is the motor shaft and bearings. The second area is the impeller-magnet assembly rotating on a stationary spindle, and hence these are the only two areas where wearing can occur.

All parts can be easily serviced and replaced in the field if necessary with the use of a screwdriver. See the Repair Parts List for necessary replacement items.

All ratings are based on pumping water. Depending on the pumping conditions, some liquids heavier than water may cause the magnetic coupling to slip. Contact the factory if this occurs for special instructions. The inlet and outlet ports are 1/2" M.P.T. threads.

**OPERATION:**

Pumps are not self priming and will not produce a suction lift and must be installed with a positive flooded suction. The pumps should not be run dry for more than 30 seconds as the plastic impeller will squeal and may bind on the stationary spindle.

**ELECTRICAL:**

The MDX-MT3 & MDK-MT3 motor is open, air-cooled, 115 volt or 230 volt 50/60 cycle, 1 phase A.C.

The TE-MDX-MT3 & TE-MDK-MT3 motor is totally enclosed, 115/230 volt, 50/60 cycle, 1 phase A.C. Wiring instructions are located on the motor label. Both motors are U.L. recognized.

**MODEL ABBREVIATIONS:**

X = Ryton

K = Kynar

TE = Totally Enclosed Fan Cooled Motor

NOTE: Contact factory for other materials and/or parts not listed.

**MATERIALS IN CONTACT WITH SOLUTION:**

MDX-MT3: Ryton, Ceramic, Viton

MDK-MT3: Kynar, Ceramic, Viton

TE-MDX-MT3: Ryton, Ceramic, Viton

TE-MDK-MT3: Kynar, Ceramic, Viton

**NOTES:**

All specifications & data are based on pumping water and are intended for use as a guideline only. Ratings & dimensions may vary depending on the current motor being used.

**LIMITED WARRANTY:**

March pumps are guaranteed only against defects in workmanship or materials for a period of one year from date of manufacture pumping water. On all other solutions, contact the factory for application assistance. March Pump Application Worksheet 750-130-10 is available for additional warranty information.
